Dr. Dimitroff and staff would like to welcome you to the practice. We thank you for giving us the opportunity to participate in your child's/children's health care. We are pleased to announce that we are working towards a **Patient Centered Medical Home**. What this means is that Dr. Dimitroff and the staff will ensure all your child's/children's needs are addressed, including behavioral health, in a manner that best suits the patient's needs. We will make healthcare decisions together with you and help you with options based on what is best for your child/children. We use evidence based guidelines for pediatric care based on the American Academy of Pediatrics in a friendly and compassionate manner.
